This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world’s books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that’s often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book’s long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ **Make non-commercial use of the files** We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ **Refrain from automated querying** Do not send automated queries of any sort to Google’s system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ **Maintain attribution** The Google “watermark” you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ **Keep it legal** Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can’t offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book’s appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google’s mission is to organize the world’s information and to make it universally accessible and useful. Google Book Search helps readers discover the world’s books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at [http://books.google.com/](http://books.google.com/)
ERRATA.

Ad Border No. 2 6 Point (shown on page 298). Now designated as "6 Point Newspaper Border No. 296." In ordering, specify 6 Point Newspaper Border No. 296.

Art Border 12 Point (shown right-hand corner, top of page 725). Should be No. 12.

Bewick Borders No. 61, 65, 69 and 71 30 Point (page 298). Price of fonts should be $3.35.

Christmas Ornaments (top of page 897). Second character from the left in second line should be No. 384A.

Cut No. 5765A. The correct design is shown on page 388. Price $1.00. The electrotype design, shown in the lower left-hand corner of page 580, should be known as No. 3764A, price 75 cents (by mistake this cut also was numbered 5764A).

Haggood Florals shown in Groups 24 Point (page 862). Font contains two of each character.

Jenson Initials (page 628). Should be 30 Point Jenson Initials No. 32, not 30 Point.

Latin Condensed No. 559 18 Point (page 589). The Lower Case is put up to Scheme XI. The figures are transposed in the Type Book making it XI a.

Lining De Vinne Extended No. 2 (page 320). The correct prices for the fonts of 50 and 75 point size are as follows:

<table>
<thead>
<tr>
<th>Point</th>
<th>Price</th>
</tr>
</thead>
<tbody>
<tr>
<td>50</td>
<td>$1.00</td>
</tr>
<tr>
<td>72</td>
<td>$2.00</td>
</tr>
</tbody>
</table>

Lining Oldstyle No. 523 6 Point 35 A $0.90 32a $1.10 32 $1.30. Type Book page 63 gives the price for Cap font at $0.80.

Lining Tudor Black No. 2 (page 130). By mistake the specimen lines for the 34 Point size were set in the same face as the 30 Point. The size and price of the font, however, are OK.

Post Condensed 34 Point (page 298). Price should read 4 A $4.70 6 A $4.35 10 $3.90.

Wayside Ornaments (page 655). Small character at top of page is No. 256. Owing to transposition this was printed 265.

Wayside Ornaments Group M (page 656). The character is the extreme lower right-hand corner, shown as No. 319, should be No. 436.

American Type Founders Co.
To the Buying Printer

This American Line Type Book shows specimens of the latest and best in type designs; the faces popular with all leading advertisers and the large buyers of printing. One reason for the increasing demand for American Type—and which, by the way, makes it "The Best Type"—is the fact that the designs are brought out in Families. One of the popular American Line Families is known as the Cheltenham Family, consisting of Cheltenham Oldstyle, Cheltenham Wide, Cheltenham Italic, Cheltenham Bold, Cheltenham Bold Italic, Cheltenham Bold Condensed, Cheltenham Bold Condensed Italic, and the latest addition, Cheltenham Outline.

Other notable American Type Families are the Century Expanded Series, Globe Goths, Florentines, Copperplate Goths, Alternate Goths, Jensons, and the "Post" Family. Many of these are shown for the first time in this American Line Type Book.

In addition to the diversified range of type faces shown in this book, the printer will also find the most attractive line of Decorative Material ever presented. In Brass Rule the selection offered is the largest ever shown, both in plain faces and distinctive faces, which are unexcelled for advertising display.

Everything required for the most complete printing office outfit can be selected from the pages of this Type Book, and the price list of Wood Goods, Printing Material and Printing Machinery will be found an authentic Purchaser's Guide for Printers.

For a large selection of both plain and ornamental type faces not shown in this Specimen Book, printers are referred to the 1900 Desk Book, a copy of which was placed in every printing office in the country.

Job Type Fonts

PRINTERS will please notice that in this American Line Type Book all Cap and Lower Case job fonts have been put up and priced separately. This will enable the printer to order an additional font of either Caps or Lower Case when extra characters are required. By ordering additional fonts of either Caps or Lower Case, the use and value of the font is permanently increased. The Job Fonts are all put up to best selected schemes, and the price of every font is based upon its exact pound rate.

Job Type by the Pound

In fonts of 25 pounds and multiples up to 36 point, and above 36 point in 50 pounds and multiples, Job Type is sold by the pound at reduced prices, according to character of face and quantity ordered. Write our nearest Selling House for estimate.

Printers desiring extra Caps for a 25-pound font can so order, in which case they will receive two and a half pounds of Caps; or, if desiring a larger quantity of Caps, can order Caps for a 50-pound font, in which case they will receive five pounds of Caps.

The same rule applies to Small Caps, Points, Lower Case, and Spaces and Quads. We will supply packages of the weights given above, or any multiples thereof, of any of our Body Type fonts, at regular prices and without delay.

References, Braces and Dashes, Leaders, Fractions and Commercial Marks are not put up with regular Body Type fonts, but if wanted must be ordered in about the following quantities or multiples thereof: References, one-half pound; Braces and Dashes, one pound; Leaders, three and five pounds; Fractions, one pound; Commercial Marks, one pound.
American Lining System

*American Point Line*  *American Point Body*  *American Point Set*

Every face on *Common Line* will line at the bottom with all faces cast on the same body and line; and by using point leads each size will line with all other sizes cast on either *Common, Title* or *Script* Lines. This explanation also applies to *Title* and *Script Lines*.

The example on this page illustrates practically the 6, 8, 10, 12, 14, 18, 24, 30, 36, 48, 54, 60 and 72 Point sizes of Lining Jenson Condensed, aligned with point justification. To better illustrate the system, one-point brass rule was used in aligning the thirteen sizes—each fine line representing a one-point lead.

I. **American Common Line**—the line common to the majority of faces.

II. **American TITLE LINE**—includes type faces in cap fonts or with short descenders.

III. **American Script Line**—embraces Script and other faces with long descenders.

The American Lining System is the perfection of the systems adopted by the foundries of this country. The value of the American Lining System is here exemplified in the use, *without justification*, of different type faces cast on the American Common Line—a feature that must commend itself to Printers for its simplicity and practical use.

Spaces and Quads are also put up in assorted fonts of 5 pounds or multiples

## Allowance for Old Type and Other Metals

- Old type (clean and unmixed with other metals), electrotype, leads and brass, delivered at foundry free, will be taken at current prices in exchange for new type or printing material.
- Customers sending in old metal are requested to mark their names on all packages, and to forward by mail a shipping receipt or bill of lading, with the net weight of each kind of material, as soon as shipment is made. Compliance with this request will aid in identifying shipments and prevent error. Ship as old metal to secure low freight rate.
- Special Notice.—Zinc plates, metal containing zinc, or type and other plates mixed with zinc plates, will not be received at any price. Type, electrotype plates, leads and brass must be packed separately as the value of each differs.
All faces of type shown in this book are cast on the American Line with the exception of Tiffany Text shown on page 40h which is cast on the original line to preserve the characteristic features of the design. Also the following Typewriter faces shown on pages 88a, 88b, 88c and 88d: Ribbon-face Typewriter, 10 Point American, Yost, Standard, and Stenograf Typewriter—all of which are cast on their original line.

5 Point Modern No. 524

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation. We hold these truths to be self-evident, that all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty, and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed. When a government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on

When, in the course of human events, it becomes necessary for one person to dissolve the political bands which have connected them with another, and assume, among the powers of the earth, the separate and equal station to which the laws of nature and of nature’s God entitle them, a decent respect to the opinions of mankind requires they should declare causes which impel them to separation. We hold these truths to be self-evident, that all men are created equal; that they are endowed by the Creator with certain inalienable rights; among these are life, liberty, and the pursuit of happiness. That to secure these rights, governments are instituted among men.

When a long train of abuses and usurpations, pursuing invariably the same object evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient but vain struggle with tyrannical power. There remains only the resort to the last extremity, the rejection of theisode and separation.

ROBERT EMMET'S LAST SPEECH. HIS REPLY TO THE PROPOSED SENTENCE OF DEATH TO BE PRONOUNCED ON HIM

What have I to say why sentence of death should not be pronounced upon me according to law? I have nothing to say which can alter your predetermination, or that it would become me to say with any view to the mitigation of that sentence which you are here to pronounce, and by which I must abide. But I have that to say which interests me more than life, and which you have labored, as was necessarily your office in the present circumstances of this oppressed country, to destroy. I have much to say as to why my reputation should be rescued from the load of false accusation and calumny which has been heaped upon it. I do not imagine that, seated where you are, your minds can be so free from impurity as to be insensible to the pressure from what I am going to say. I only wish, and it is the fact, that the storm may suffer it to float down your ears, or that the breath of prejudice from which it is at present buffeted may suffer it to float down yours. But, I wish that I may be able to show that I am not that man which it is, or was, or has been. I only wish to be convinced, as I am, that I was not, as you may have thought, heaped up in the mind of law which delivers me by the ministry of that law to consign my character to oblivion, or, if there must be guilt somewhere, to be exposed to the blood of the murdered patriots who have gone before, that my conduct has been through all this peril and through all my purposes governed only by the convictions which I have uttered, and by no other view than that of the emancipation of my country from the superhuman oppression under which she has so long and too patiently traveilled, and that I confidently and assuredly hope that wild and chimerical as it may appear, there is still union and strength in Ireland to accomplish this noblest enterprise. Of this I speak with the confidence of intimate knowledge, and with the consolation that appertains to that confidence. Think not, my Lords, I say this for the petty gratification of giving you a transitory uneasiness; a man who never yet raised his voice to assert a lie will not hazard his character with posterity by asserting a falsehood on a subject so important to his country, and on an occasion like this. Yes, my Lords, a man who does not wish to have his epitaph written until his country is liberated will not leave a weapon in the power of envy, nor a pretence to impeach.
HEN I compare, Athenians, the speeches of some amongst us with their actions, I am at a great loss to reconcile what I see with what I hear. Their protestations are full of zeal against the enemy of the public; but their measures are so inconsistent that all their professions become suspected. By confounding you with a variety of projects, your resolutions are perplexed and they lead you from executing what is in your power by engaging you in schemes not reducible to practice. Observe They were friends to truth and servile compliance by unanimous consent they the space of forty-five years no less than ten thousand persons, frequent and signal transmitted to posterity an to them we owe that great all the rest of the world in adorned with the spoils of the least mark or ornament them from their neighbors own private habitations or other of those patriots if recovering from this the ancient freedom and you would be your own confiding no longer your friends if you would charge pleasurable pleasures at home behold you making a service in our armies pensions we receive in as we are to understand would make it a standing rule, that no person, great or little, should be the better for the public money, who should grudge to employ it for the public service. Let your gratitude oblige you accept as pay in the defence of your benefactors what you receive in peace as mere bounty. THE GREEK REVOLUTION

In the year of 1481, Greece, the early and favored seat of art, science and literature, was conquered by the Turks after a fierce and bloody contest that lasted more than forty years. The Venetians, however, were not disposed to allow its new masters quiet possession of the country; and during the sixteenth and seventeenth centuries it was the theatre of most obstinate wars between them and the Turks that continued till 1718, when the Turks were confirmed in their conquest by treaty. Although the Turks and Greeks never became a single nation and the strained relation of conquerors and conquerors never ceased, yet the Turkish rule was quietly submitted to until the year 1821, when, according to previous arrangements, on the 7th of March, Alexander Ypsilanti, a Greek, and then major-general in the Russian army, proclaimed from Moscow the independence of Greece at the same time giving assurance to his countrymen of the aid of Russia in the approaching contest. But the Russian emperor declined to inter-

The eastern part of the plain of Argos was dry and barren. The word

The personification of their name thus became a hero, Danaus. Again,—springs and daughters of the earth, as they are called by the Arabs; the nymphs of the springs are therefore daughters of Danaus, the son of the thirsty land; and, as a confirmation, in some degree, of this view of the legend, the names of the daughters of Danaus were the names of springs. One of the most important and widely disseminated of the classic beliefs of antiquity is that of the hero-god Hercules. At first view nothing can be more monstrous and incoherent; yet, in every subject of chronology, and more replete with contradictions than the barren legend of the adventures

NAPOLEON'S PROPOSALS FOR PEACE REJECTED

S soon as Napoleon was seated on the consular throne of France he addressed to the British government an able communication, making general proposals of peace. To this a firm and dignified reply was given, ascribing all the evils which afflicted Europe to French aggression and French ambition, and declining to enter into a general pacification until sentiment, in her internal condition, pledges than she had yet given to the British government, and security to the British government formed the second period of the war. FROM the death of Charles the Fifth up to the year 1618, no event in German history exercised any great influence on the politics of Europe. At the latter period, however, the emperor of Germany Matthias succeeded in establishing the subordinate crown of Bohemia for his cousin Ferdinand and this was the commencement of a thirty years' war, a war indeterminate in its objects, but one which before its close involved, in its complicated relations, nearly all the states of continental Europe. HAVE you heard of the wonderful one-hoss shay, That was built in such a logical way It ran a hundred years to a day, And then, of a sudden, it — ah, but stay, I'll tell you what happened without delay, Searing the person into fits, Frightening people out of their wits. — Have you ever heard of that, I say? Seventeen hundred and fifty-five, Georgius Secundus was then alive, — Snuffy old drone from the German hive. That was the year when Lisbon-town Saw the earth open and gulp her down And Braddock's army was no more. Left without a scalp to its crown. It was on the terrible Earthquake-day That the Deacon finished the one-hoss shay. Now in building of chaises, I tell you what, There is always somewhere a weakest spot, — In hub, tire, felloe, in spring or thill, In panel, or crossbar, or floor, or sill, In screw, bolt, thorough-brace, — lurking still, Find it somewhere you must and will, — Above or below, or within or without. — And that's the reason, beyond a doubt, That a chaise breaks down, but doesn't wear out. But the Deacon swore (as Deacons do, With an "I know," and "I tell you") He would build one shay to beat the taown 'n the kentry rouan'; It should be so built that it could n't break down!" Fur," said the Deacon, "'t's mighty plain That the Weakes' place mus' stan' the strain; 't's the way t' fix it, us I maintain, is only jest? T' make that place us strong us the rest." So the Deacon inquired of the village folk Where he could find the strongest oak. That could n't be split nor bent nor broke. — That was for spokes and floor and sills; He sent for lanewood to make the thills; The crossbars were ash, from the straightest trees. The panels of white-wood, that cuts like cheese, But lasts like iron for things like these; The hubs of logs from the "Settler's elum." — Last of its timber, — they could n't sell 'em, Never an axe had seen their chips, And the wedges flew from between their lips, Their blunt "Hahnsom kerridge" they called it then. Eighteen hundred and twenty came; — Running as usual, Much the same. Thirty and forty at last arrive, And then come fifty and FIFTY-FIVE. Little of all we value here Was of any sort a year Without both feeling and looking queer. In fact, there's nothing that keeps its youth, So far as I know, but a tree and truth. (This is a moral That runs at large; Take it. — You're welcome. — No cause to change. James or Novembr, the Earthquake-day. — There are traces of age in the one-hoss shay. A general flavor of mild decay, But nothing local, as one may say. (This could n't have been — for the Deacon's art Had made it so like in every part That there's no chance for one to break. For the wheels were just as strong as the thills, And the floor was just as strong as the sills, And the parts as strong 'g'in the floor, And the whipple-tree neither less nor more. And the back-crown neither up nor down. The Tale and all that, — And spring and axle and hub once more. And yet, as a whole, it is past a SIX POINT NORWOOD ROMAN, SET SOLID

Old charters shrivel in its track, His Worship's bench has crumbled, it climbs and clamps the union-jack, its blazoned pom is humbled, the flags go down on land and sea like corn before the reapers. So burned the fire that brewed the tea that Boston served her keepers. The waves that wrought a century's wreck have rolled o'er whig and Tory; the Mohawks on the Dartmouth's deck still live in song and story; the waters in the rebel bay have kept the tea-leaf savor; our old North-Enders in their spray still taste a Hyson flavor; and Freedom's teacup still o'erflows with ever fresh libations, to cheat NORWOOD ROMAN

THE BOSTON TEA PARTY, READ BY OLIVER WENDELL HOLMES AT A MEETING OF THE MASSACHUSETTS HISTORICAL SOCIETY, 1874

O! never such a draught was poured since Hebe served with Nectar the bright Olympians and their Lord, her over-kind "protector,"—since Father Noah squeezed the grape and took to such behaving as would have shamed our grandsire ape before the days of shaving. No! ne'er was mingled such a draught in palace, hall or arbor as freemen brewed and tyrants quaffed that night in Boston Harbor! It kept King George so long awake his brain at last got addled, it made the nerves of Britain shake, with sevenscore millions saddled; before that bitter cup was drained, amid the roar of cannon, the Western war-cloud's crimson stained the Thames, the Clyde, the Shannon. Full many a six-foot grenadier the flattened grass had measured, and many a mother many a year her tearful memories treasured. Fast spread the tempest's darkening pall, the mighty realms were troubled, the storm broke broke, but first of all the Boston teapot bubbled! An evening party, only that, no formal invitation, no gold-laced coat, no stiff cravat, no EIGHT POINT, OPENED WITH TWO POINT LEADS
This is the first of a series of five fine volumes; the second deals with North America; the third, Europe and the other continents. Part I of definitions and illustrations, as of mountain, river, valley, harbor, and factory, and have planned to build the later text with the ideas these

From this it happens that the best books have contained some

HOME GEOGRAPHY

How these Needs are Met.—The first hundred pages of this volume attempt to supply a foundation by treating first, such common things as soil, hills, valleys, industries, climate, and the government, which are part of every child’s environment; and secondly other features, as the mountains, rivers, lakes, and ocean, which, though absent from many localities, are still very necessary as a preparation for later study. Definitions, however, are not relied upon for giving the child this extra knowledge but detailed descriptions and discussions instead. This by no means involves neglect of the child’s environment from the time the unfamiliar matter is introduced.

Relationship to Mankind.—According to the definition of geography—which treats of the relations between man and the earth—a hill or a lake is worthy of mention only because it bears a relation to us, the men upon the earth; considered by itself it is not a part of geography. Each chapter which takes up one of the above subjects, either closes with the bearing of the given topic upon mankind or it deals with the human relationship throughout.

Earth as a Whole.—The most difficult portion of our task has been that which presents the earth as a whole. That a bird’s-eye view should be given at a very early period in the child’s instruction is not bad, but it is not so easy in a limited space to support the principal facts with a sufficient detail to produce very bright pictures. The things commonly included in the study, such as for instance the latitude and longitude, should be omitted. They have also found that many other minor subjects usually presented are comparatively irrelevant to the geographic

TEN POINT, OPENED WITH TWO POINT LEADS
Prelude to Voices of the Night

Henry Wadsworth Longfellow

Leasant it was, when woods were green, and winds were soft and low, to lie amid some sylvan scene, where, the long drooping boughs between, shadows dark and sunlight sheen alternate come and go; or where the denser grove receives no sunlight from above, but the dark foliage interweaves in one unbroken roof of leaves, underneath whose sloping eaves the shadows hardly move. Beneath some patriarchal tree I lay upon the ground; his hoary arms uplifted he, and all the broad leaves over me clapped their little hands in glee, with one continuous sound,—a slumberous sound, a sound that brings the feelings of a dream, as of innumerable wings, as, when a bell no longer swings, faint the hollow murmur rings o'er meadow, lake, and stream. And dreams of that which cannot die, bright visions, came to me, as lapped in thought I used to lie, and gaze into the summer sky, where the sailing clouds went by, like ships upon the sea; dreams that the soul of youth engage ere Fancy has been quelled, old legends of the monkish page, traditions of the saint and sage, tales that have the rime of age, and chronicles of elder. And, loving still these quaint old themes, e'en in the city's throng I feel the freshness of the streams, that, crossed by shades and sunny gleams, water the green land of dreams, the holy land of song. Therefore, at Pentecost, which brings the Spring, clothed like a bride, when nestling buds unfold their wings, and bishop's caps have golden rings, musing upon many things, I sought the woodlands wide. The green trees whispered low and mild; it was a sound of joy! They were my playmates when a child, and rocked me in their arms so wild! Still they looked at me and smiled, as if I were a boy, and ever whispered, mild and low, "Come, be a child once more!" And waved their long arms to and fro, and beckoned

The American Line Leaders shown herewith are the only correctly proportioned and accurately cut Leaders ever designed and cast. These have been cut in five distinct series, with a uniformity and harmony in the grading of the different sizes which will be appreciated by discriminating printers. This perfection has been attained only through the use of newly invented tools belonging exclusively to the American Type Founders Company. On this page is an impression of each size of the five styles.

These Leaders are cast from Copper Alloy type metal, which excels all other makes in lightness and in wearing qualities. For the special convenience of printers they are put up in job fonts of three and five pounds and sold at regular body type rates, the same as charged when ordered in bulk.

The American Line Leaders line accurately with all American Line faces cast on larger or smaller bodies by justification with Point Leads and Slugs. A practical illustration is given on the following page.

The progress of literature and the arts during the sixteenth century was greatly favored by the spirit of inquiry fostered by the Reformation, a spirit that extended far beyond religion, and pervaded, more or less, every form and feature of society. The literature of this period begins to be distinguished by the first dawning of a bold, bad spirit of doubt, examination and originality. However, in the seventeenth century, when the

There is pleasure in printing for those who merely do the work. But to those who delve into its mysteries, there's inspiration. Its difficulties are not exactly what they once were, but every little trouble overcome, and every bit of technique mastered adds to the fascination.

And it is because we want them to enjoy a full measure of typographic perfection that we wish to get in closer touch with printers, so that we may carry them, step by step, through the various branches of the art, until they are fully capable in producing perfect work, from the artistic, mechanical and the technical standpoints. With this end in view we have established the Correspondence School of Printing.

Fortunately there is no study which can be more readily pursued by mail than printing. Forms can be sent by freight, proofs can be safely sent by mail at slight expense, and work can be easily and inexpensively submitted to our instructors for criticism, a trained corps of which are engaged for this special purpose.

Our course consists of a thorough instruction through correspondence in:

Getting the Work
Where, when and from whom

Getting Out the Work
How: with and without

Getting the Money
Attachments, and otherwise

The text-book, of course, which is included in the tuition price, is a handsome cloth-bound volume and is called "The Simple Life".

The Correspondence School of Printing is open to all upon payment of seventy-five cents, which price simply covers cost of book and a portion of postage and stationery.

Fragments of works printed by him are still in existence. It was only natural that his thoughts should be led to the production of single types as a means of cheapening and facilitating his work. These were first made of wood and afterwards of tin. The date of his invention of separate types is given as about the year 1429. Many other dates have been stated,

There is something in proper marginal illustrations that seem to breathe life and spirit into the accompanying text; just as music at the dinner or reception carries with it gayety and dreamy pleasure. Not only that, but it is one of the means of illustration that requires little space and adds the element of artistic display that type does not always possess. A compositor can set a fine title page or advertisement with the latest type or border, but a page of text with an initial letter and marginal cuts is always improved.

Proclamation

In accordance with ancient customs, sent down to posterity by illustrious forefathers, Thursday, the 30th day of November, has been set apart as a day of Thanksgiving.

Now, therefore, American Type Founders Company hereby solemnly proclaims that, in order to worthily meet the demands of its customers, its storehouses have been filled to bursting with the essentials to procure money for the feast.

On that day of days may the members of its great and growing family of printers unite in rendering thanks, eat, drink and be merry, and enjoy the festival royally.

Given at each salesroom throughout the United States.

Della Robbia for Circular Work

As to any fixed religion, these tribes either worshipped only one god, or paid adoration to numerous deities. The latter supposition seems by far the more probable. A spontaneous religious feeling, unconnected with any glimmerings of traditional revelation, would probably arise in the bosoms of the rudest barbarians, however they might be situated; but the character of this natural religion would doubtless be varied or modified by the circumstances of climate, soil, scenery, and mode of life of the bosoms of the people, and character of the place however those circumstances may vary, whether there is a God or not really our business. Our answer is: The Trojan war was never fought, and that as the question is a simple one it is impossible to answer, we shall give you the answer of the beautiful son, and proceed at once to the matter, and of the cicada, which do not, as is vulgarly supposed they do not appear to have had no fixed laws established by legislation. Public opinion and usage, based upon principles of natural equity, and confirmed and expounded by judicial decisions, were the only sources to which the weak and injured could look for protection as well as redress. Private differences were most often settled by private means, but in quarrels which threatened to disturb the peace of the community, the public compelled the injured party to accept, and the aggressor to pay, the compensation established by custom. As among the savages of America, and even among our early Saxons ancestors, the murderer was very often

FIRST ROMAN LETTERS ARE Employed in most all the manuscript from the fifth century to about the close of the twelfth, when what are called Gothic letters, afterwards Old English, came into gradual use. These were in continued use.

ALDO MANUCCIO, BORN IN THE CITY OF BASSANO, SUCCEEDED NICHOLAS JENSON at the noted city of Venice and turned to a good account the latter's admirable fonts of type. He also made many advances in the art of printing, the most notable of which is the invention of the style of type now known as Italic. It was said to be founded on the handwriting of the famous Petrarch, whom it closely imitates.

ITALIC WAS LARGELY USED TO DISTINGUISH SUCH PART OF a book as might be considered appendages, as Prefaces, Introductions and Annotations, etc., all of which were formerly printed in this character. It was very appropriately used to distinguish the head or the subject.

ATTENTION GIVEN METAL QUALITIES COMPETITION among a number of the smaller foundries has led them to use an inferior metal, and produce types without due regard to the nicety of finish and the exactness and uniformity of body and standing. It is important that types should have a strong
THESE beautiful letters were made originally for the Ladies' Home Journal by the American Type Founders Co., from drawings by Wm. Martin Johnson. The requirements called for a composite modernization of popular oldstyle faces, retaining all of their desirable features, while eliminating those proven undesirable.

It was further stipulated that the Meriontype letters must be interusable with the letters of the Bulfinch, or sister series. With the single exception of this last, the fulfillment of the requirements is plainly evident. The feature of interuse is the more valuable simply because of its being nonevident. And yet the two faces are in no sense identical. There has been sent to printers about 50,000 copies of Meriontype specimens and a like number of Bulfinch specimens. Over 1,000,000 copies of Meriontype and Bulfinch specimens are sent out each month in the Ladies' Home Journal, for which these types were specifically cast. Examine any issue of the Ladies' Home Journal for a beautiful, practical showing of Meriontype and Bulfinch, handsomely arranged and printed, and you will appreciate their many merits.

The Old Tabard Inn
Southwark, England

We are pleased to inform the traveling public that we have purchased and entirely renovated this famous hostelry, made notable by Chaucer Canterbury Tales. Careful attention given to transient guests. Nothing that an experienced brain can conceive, or most lavish expenditure of money supply, is lacking. Our aim has been to provide every requisite for your comfort and convenience that might be a part of the ideal home.

Here all ranks and classes of society were annually brought together in the company of pilgrims who assembled to ride to the shrine of the noble Saint of Canterbury: the knight with his son, the squire and his retainer, the yeoman, the abbot, and the haberdasher, all citing stories of love and chivalry and enjoyment.

brings comfort and refinement on-
the reverse. The harmony of color,
beauty of proportion and consist-
ency of furnishing; these are the
things that give an indefinable air
to a home; a charm, the reason for
which we don't stop to analyze, but
the absence of which, people of good
taste very quickly detect. To have
a beautiful and comfortable home
of one's own ought to be the ambi-
tion of every sensible individual of
mature age: and how to make that
home as beautiful as one's purse
will permit is an art which every
one should be interested. House
decoration is an art that requires
study. No matter how good your
taste or your judgment; no matter
how keen your eye for color or your
brain to plan you cannot keep fully
informed as to what is going on in
the world of manufactures. There
is where the decorator is needed.

OME TIME WHEN KING Arthur, returned after long wars, became rested, to a feast and a Round Table

WITH HIS ALLIES OF KINGS, PRINCES, AND noble knights, there came into his hall, he sitting silently in his throne royal, twelve ancient men each man bearing a branch of olive as a token

THAT HE CAME AS AMBASSADOR AND MESSENGER FROM the Emperor Lucius, which was at that time called the Dictator or Procuror of the Public Weal of Rome; which the said messengers after entering and coming into the presence of King Arthur, did

TO HIM THEIR OBEISANCE IN MAKING TO HIM Reverence, AND SAID to him in this wise: The high and mighty Emperor Lucius sendeth to the King of Britain greeting, commanding thee to acknowledge him for thy lord, and to send him the truce due of this realm unto the Empire, which

THY FATHER AND OTHER PRECESSIONS HAVE paid, as is of record, and thou as rebel not knowing him as thy sovereign withholdest and retainest contrary to the statutes and the

decrees made by the noble and worthy Julius Caesar, conqueror of this realm and the first Emperor of Rome. And if thou refusest his demand and commandment, know thou for

CERTAIN HE SHALL MAKE STRONG WAR AGAINST thee and thy subjects, that it shall be an example perpetual unto all kings and princes, to deny their truce unto that noble empire which domineth upon the universal world. Then when they had showed effect of their message, the King commanded them to withdraw, and said he would take advice of his council and give them an answer for their Emperor

There she weaves by night and day
A magic web with colors gay
She has heard a whisper say
A curse is on her if she stay
To look down to Camelot.
She knows not what the curse may be
And so she weaveth steadily,
And little other care hath she,

That hangs before her all the year,
Shadows of the world appear.

There the river eddy whirls,
And there the surly village churls,
And the red cloaks of market girls,
Pass onward from Shalott.

Sometimes a troop of damsel’s glad,
An abbot on an ambling pad,
Sometimes a curly shepherd lad,
Or long-haired page in crimson clad,

THE CUSHING STYLE IS POPULAR AND USEFUL FOR VARIOUS GOOD REASONS

CUSHING types always print clearly, wear long, and make exceptionally sharp, durable electros. These features, in combination with the departure in roman letter which the face presents, have made them very popular with printers and publishers everywhere, and until now the constantly increasing demand has established them as a standard type fashion. An examination of any considerable amount of the printed matter that is put out by printers of all classes all over the country will disclose the great extent to which the Cushing types are being used. It needs only to call your attention to the absence of hair lines to demonstrate the durability of this series
ANCIENT SPOTS ON THE MOON: BEING A FEW EXCERPTS FROM THE WORKS OF SOME OF THE LATE SCIENTISTS AFTER OBSERVATION IN THE MOST FAVORED LOCALITIES

It requires no telescope to perceive on the surface of the moon several wide spots or patches, which appear dark in comparison with that more brilliant portion of the lunar surface that lies about them, and with an opera glass their outlines can be very distinctly seen. These are the seas of Galileo and they yet retain that name in the Latin form *mare*. At first these were believed to be real seas, filled with water, but modern astronomers are now convinced that they contain no water; the opinion has been widely taught that they are empty sea beds whose waters disappeared ages ago. Lately, a modification of this view is expressed by Mr. Thomas G. Elger an English authority on the subject. It is possible, even probable, that at

A remote period in the evolution of our satellite these lower regions were occupied by water; but that their surface, as it now appears, is actually this old sea-bottom seems to be less likely than that it represents the consolidated crust of some semi-fluid or a viscous material which has welled forth from orifices or rents communicating with the interior and which overspread and partially filled these immense hollows, more or less overwhelming and destroying many formations which
HEAD-BANDS AND TAIL-PIECES AS AN AID TO DECORATION IN BOOKMAN ART

BOOKS with decoration are needed. Those that are classified under the name of light reading, and not intended for study, but for amusement or practical information, may receive ornament in many forms, from occasional lines in red ink or border lines of brass rule to elaborately engraved head-bands, initials, and tail-pieces, broad borderings of flowers or rules, explanatory illustrations, inks of many colors, or a text letter of some eccentric or peculiar design. These are some of the many methods of making a book for an amount of skill, patience, and not pure meddlesomeness. An amateur soon in a painstaking manner by is so expensive, and quite yet he hopes to get the design for the text, which seems to ornamentation is not to be undertaken who undertakes it should be sure that an engraving or a picture, can be spotted additions that divert the attention from the book. The common fault of the amateur, and often of the running title of the book, when not of extreme width of the measure, is filled with border that make it and its paging significant, or if it is confined within the text by rules that annoy and do not help the book. The rule is more prominent than the type of last line in every paragraph may be filled print, like the paragraph, and the filling out the page.

Concerning Mythology

HEAVEN prosper all our good purposes, and give virtue to put them in execution! Be not offended at my well-meant wish: one of your former favorites, whose follow all antiquity you are sure had never produced, says an old thing prettily. At the birth of Venus, or Beauty, the Gods held a grand feast; to which among all the other deities came Plenty, the son of Foresight; and, as is usual on such occasions, Poverty came likewise a-begging, and hung on about the door. Towards the end of the entertainment, Plenty being intoxicated with nectar, for there was yet no wine, went into the garden of Jove, and oppressed with the celestial liquor sunk down in sleep. Poverty spied him in this plight. Cupid, in first place, like his mother, is perpetually in want: and from being beautiful or blooming, as most people imagine, he is eager, ravenous and rough; wandering about barefoot, without house or habitation; sleeping before doors, or by the wayside under the open sky, and constantly accompanied with

NOTE. Could any body, do you imagine, take it into his head after reading this situation, that the author of it actually believed the little fluttering thing he has so evidently described to be a real divine person, and would worship him accordingly as a God? One should think so; especially as this very possible has been taken for an argument of his being of the whole train of his national divinities, whom he reverenced in obedience to the laws of his country, and professed himself incapable of explaining their nature and mystical generation. Or, on the other hand, would it be so absurd to say, that it had no meaning at all? It must be a strange turn of mind that could lead to either: for to believe it literally, or to condemn it for want of ingenuity, are equally preposterous.

to the ingenuous Physiognomist who tells us. That the chief indications of men's dispositions are to be found in their countenances and center particularly in their looks, even their very souls appearing through their eyes to an intelligent spectator, as through the gates and avenues of the mind: and that a set, simple look, for example, little moist eyes, moving eye-brows and softened features, are signs of a man being contemplative, thoughtful and given to learning, and particularly the belles-lettres. Again, that a dark, humid eye, open and frequently fixed, is a sign of thought and perception; but if it likewise looks mild and benigne, it further betokens worth and ingenuity; for such, says he, was the eye and looks of the wise and worthy Socrates. Perhaps you will hold yourself a better judge of the following aspects, which he describes much to the same purpose. Eyes say he, standing frequently open, without winking, looking gentle and humane, swimming in a transparent fluid, show the person to be contemplative, a lover of knowledge,

NOT FAR FROM THE STATION WAS A ROUGHLY SHAPED BOARDING HOUSE

HERE I found lodging for the night. Next morning after an early breakfast I went back to the station. Outside was a log train switching back and forth, and preparing to make its daily journey back on a branch road into the mountain. I decided to go with it, and climbed into the rudely built caboose at the rear and the wild ride back to the big logging camp was commenced

QUANTITIES OF SNOW HAD FALLEN DURING THE NIGHT TIME, BUT IT LAY LIGHT AND UNDRIFTED

WE went as far as the train would carry us to the camp in the very heart of the woods. Here the choppers numbered about fifty. They were not making a clean sweep of the forest, but only taking out the spruce and pine, so that they left woodland behind, though thinned and devastated. A well-worn road led back from Hardington's camp into the woods and I followed it for about half a mile until I found the choppers who were busily engaged in getting the many large trees that had been cut trimmed up and ready to be hauled out to the train and taken down to the Immense sawmills in Bangor.

Considerable snow had fallen during the day, and it lay light and undrifted but did not materially stop the progress of the horses, although they panted heavily in ascending some of the very steep hills few of the passengers had cared to ride outside when they were traveling through the woodland.
THE POOR PRINTING

IS A GREAT BENEFIT

to the chap who does good printing, for all work is either good or bad, by comparison, and the greater the comparison, the more extreme the goodness or the badness. The goodness of printing is not altogether dependent upon the material employed, but when that material is poor the product will come pretty near being the same. Good material and modern machinery as supplied by American Type Founders Company costs no more than other kinds.

'Tis up to you as the type that cannot be made to look badly costs no more than that which it is most exceeding difficult to make look good! And, again, type that is in itself effective can be made much more effective by skillful handling. Printing produced from such type is good anyway, and classes you among the good printers! So much assumed (and it is assured), it would not seem improbable that a classification among the modern printers was obtainable. The Lining Elzevir Gothic is a great coverer; it covers a multitude of different classes of printing: book work, job work, newspaper work, in all of which it can be utilized with good results. It will also be observed that it is built for hard work.
BAD BLOOD is a poisonous and very dangerous thing. Will affect every organ and function and bring about such a low physical condition that it is the predisposing cause of most of the evil diseases afflicting humanity; catarrh, dyspepsia, rheumatism, and a long train of ailments that come under the head of general debility. It is the source of scrofula, boils, itch, eczema, eruptions, responsible for white-swelling, hip-diseases and many other malformations.

Dear Sir:-

The American Type Founders Company is the leading merchant in Printing Machinery and Printer's Supplies, and as such its policy is to offer only such manufactures as are standard and of superior value to the printer. To give the longest and most satisfactory service in proportion to the selling price of an article is the best evidence of superior value, and by this standard the Machinery and Materials which it handles have been selected.

As the productions of the American Type Founders Company are the admitted standard of excellence throughout the world, due regard for the reputation of its own productions will not permit it to recommend anything that is not the best procurable in its class.

In the line of type faces to enable the printer to handle orders for imitation typewritten letters, the American Type Founders Company is the acknowledged leader. In this American Line Type Book will be found specimens of such type faces, matching the work of leading makes of typewriting machines. A specialty has also been made of Reproducing Typewriter faces, to meet the constantly increasing demand for facsimile letters in reduced size.

Dear Sir:-
Lining Smith-Premier Typewriter No. 2 is a close reproduction of work done on the machine, and this face will therefore commend itself to the Printer who secures orders for imitation typewritten letters requiring this particular face.

There is a constantly increasing demand for the printing of imitation typewritten letters, and in all the leading cities wide-awake printers are taking advantage of this and increasing their facilities for doing this work.

Imitation Typewriter Inks—Purple, Blue, Black, Green and Red—are shown in the Specimen Book of Printing Inks recently issued by the American Type Founders Company. If you have not a copy of this, write the nearest Selling House.

Fac-simile letters are more extensively used in business each year, and the printer who develops this specialty is wise in his day. The accurately reproduced typewriter faces offered by the American Type Founders Company, in such liberal variety, are proving a great help to the craft.

A foundry, principally for German type, was established at Germantown, Pennsylvania, about the year 1735, by Christopher Saur, or Sower, a printer, who executed in Germany the first quarto Bible printed in America, as well as other valuable books in the German language. Three editions of the Bible were printed—viz., in the years 1743, 1763 and 1776, the latter two by his son. In 1739 Saur published a newspaper in Germantown.

An abortive attempt was made about 1768 to set up a foundry at Boston by a Mr. Mitchelson from Scotland, and another in Connecticut in 1679 by Abel Buel. In 1775, Dr. Franklin brought from Europe to Philadelphia the materials for a foundry: but little use of them was made.

John Baine, a type founder of Edinburgh, sent a relative to this country with tools for a foundry at the close of the Revolutionary war, and soon after came over himself. They carried on the business till 1790, when Mr. Baine died, and his kinsman returned to Scotland.

A Dutch founder, Adam G. Mappa, settled at New York about 1787, and cast Dutch and German faces, as well as Roman styles and several Oriental alphabets. Want of capital prevented his success, and many of

To cast off manuscript with accuracy and precision is a task which requires great attention and mature deliberation. The trouble and difficulty are much increased when the copy is not only irregularly written (which is generally the case), but also abounds with interlineations, erasures and variations in the size of paper. At times, so numerous are the alterations and additions as to baffle the skill and judgment of the most experienced calculators of copy. Such an imperfect and slovenly mode of sending works to the press cannot be too strongly censured.

To the Advertising Printer.
Looking for Profit.

Dear Sir: This is a specimen of our new 6 Point American Typewriter, which has been cut to meet the requirements for a small size Typewriter face for use in reproducing typewritten letters where the space is limited. There is a constantly increasing demand for printing of this character on the part of large manufacturers and merchants who are desirous of reproducing for advertising purposes fac-simile copies, in reduced form, of business correspondence.

The 6 Point American Typewriter is put up in job fonts of usable size, and the fonts of Caps and Lower Case are put up separately (in accordance with our usual custom), and consequently printers can order additional fonts of Lower Case or Caps as may be required in order to strengthen their font for a special purpose.

Many offices are developing an almost independent business along these lines of Imitation Typewritten Letters and the reproduction of fac-simile letters in reduced form, and find it extremely profitable. Would not a personal canvass among the leading manufacturers and merchants in your own locality prove exceedingly remunerative to you? But a small outlay is needed for a supply of Typewriter Type in order to enable you to successfully enter this field.

The American Type Founders Company makes a very complete line of Typewriter Type in faces which match the work of leading machines. And these faces have been cut for use in printing through silk (which gives the closest imitation of a regular typewritten letter), and also the regular faces, which do not require any special appliances but are designed for printing direct with the ordinary printing ink.

Then there is the Ribbon-Face Typewriter (specimens of which will be found on page 68) also used for printing in the regular way, without any silk attachment and which gives a marvelous reproduction of the typewritten effect, making it difficult to distinguish the result from the work of a regular typewriting machine. Better results are obtained with the Ribbon-Face Typewriter Type by using the Record Ink prepared especially for use with this type and sold by all Selling Houses of the Company.

Instructions for use of New Model Typewriter faces, designed for printing through silk, are given on preceding pages. We can supply all requirements for necessary material, also typewriter ribbons exactly matching the shade and color of ink used in printing the body of the letter, these ribbons being designed for use on the machines in filling in the names and addresses.

Mr. Printerman,

Dear Sir:--

This face of 10 Point American Typewriter is extensively used by successful printers in the production of Imitation Typewritten Letters by the process of printing through silk. We furnish the regular Process Inks and the Typewriter Ribbons to match for this work. Also adapted for use as a regular typewriter face in the ordinary way.

Fac-simile letters are more extensively used in business each year, and the printer who develops this specialty is wise in his day. The accurately reproduced typewriter faces offered by the American Type Founders Company, in such liberal variety, are proving a great help to the craft.

One of the best faces for fac-simile work is our American Typewriter, 10 point body, of which this is a sample, each color printed direct from type, on a platen press, the same as any other printing would be done. Used also for printing through silk.

Ten Point American Typewriter may be obtained from the nearest house of the American Type Founders Company. Printers are invited to study the merits and possibilities of this face—a most desirable size for the fac-simile letters needed by professional men, clubs, libraries and similar sources of new customers.

Mr. Printerman,
Typewriterville.
Dear Sir:-

This is a sample of the work printed direct from our Ribbon-Face Typewriter Type on an ordinary printing press. This is the Type that produces the True Ribbon Effect.

Compare under a glass with a regular "typewriter" letter. No difference discernible. No apparatus, no manipulation; set the gauges and go ahead.

The characters are A B C D E F G H I J K L M N O P Q R S T U V W X Y Z a b c d e f g h i j k l m n o p q r s t u v w x y z & $ £ / ( ) " % # 1 2 3 4 5 6 7 8 9 0 . , ; ' _ ?

Any printer can now successfully print "fac-simile" typewriter circulars in unlimited numbers, easily and quickly with profit.

We recommend the use of Record Inks made expressly for printing with the Ribbon-Face Typewriter Type. These Inks are made in Purple, Blue, Green and Black, and Typewriter Ribbons are supplied to match these shades.

TO THE MASTER PRINTER:  
In All Lands.

Dear Sir:—

The American Type Founders Company expends more each year than all other type founders in the world in producing new types and showing them attractively. With its immense business and great facilities it can afford to do this as no other founder can.

It will cost no more to buy American type than it will to buy inferior designs or imitations. We are sending you continuously beautiful Specimens showing our new types, borders and ornaments. Not only in this rapidly enlarging our business, but if our material is used effectively it will largely increase your business.

Your customers can be induced to order a vastly increased amount of printing if you show them how they can increase their trade by having you furnish them with up-to-date styles in printing.

The experiment is worth your trial; it will pay you a big percent. on your investment—many times the legal rate.

Our interest is your interest, and your interest is our interest. If you order some of our latest type, borders and ornaments now, you will get profitable results.

STANDARD TYPEWRITER

The Standard Typewriter is a reproduction of the work done by the Remington Standard Machine—the matrices being obtained from facsimile impressions furnished by the manufacturers. This face commends itself to the printer producing imitation typewritten letters, being easy to read, does not tire the eye, matches work of Standard Typewriter, and because the type is clean cut and durable.

There is a constantly increasing demand for the printing of imitation typewritten letters, and in all the leading cities wide-awake printers are taking advantage of this and increasing their facilities for doing this work.

Imitation Typewriter Inks--Purple, Blue, Black, Green and Red--are shown in the Specimen Book of Printing Inks recently issued by the American Type Founders Company—if you have not a copy of this, write the nearest Selling House.

Founding of Babylon

The primal great government of human origin was the Babylonian empire. One hundred and fifteen years after the flood, Nimrod, son of Cush and great-grandson of Noah, entered into the land of Shinar on the River Euphrates surrounded the great tower Babel with walls and settled therein with his associates and followers, thus founding a city which was named Babel-on or Babylon, first city in the world’s history. After founding of Babylon he went north into the country of Assyria and founded a city on the bank of the Tigris which he called Nineveh, in honor of his son Ninus. Nimrod is represented as “mighty hunter before the Lord,” and is supposed to have engaged in arduous work of hunting with two great objects in view.

22 Blessed are ye, when men shall hate you, and when they shall separate you from their company, and shall reproach you, and cast out your name as evil, for the Son of man's sake.
23 Rejoice ye in that day, and leap for joy: for, behold, your reward is great in heaven: for in the like manner did their fathers unto the prophets.
24 But woe unto you that are rich! for ye have received your consolation.
25 Woe unto you that are full! for ye shall hunger. Woe unto you that laugh now! for ye shall mourn and weep.
26 Woe unto you, when all men shall speak well of you! for so did their fathers to the false prophets.
27 But I say unto you which hear, Love your enemies, do good to them which hate you.
28 Bless them that curse you, and pray for them which despitefully use you.
29 And unto him that smiteth thee on the one cheek offer also the other; and him that taketh away thy cloak forbid not to take thy coat also.
30 Give to every man that asketh of thee; and of him that taketh away thy goods ask them not again.
31 And as ye would that men should do to you, do ye also to them likewise.
32 For if ye love them which love you, what thank have ye? for sinners also love those that love them.
33 And if ye do good to them which do good to you, what thank have ye? for sinners also do even the same.
34 And if ye lend to them of whom ye hope to receive, what thank have ye? for sinners also lend to sinners, to receive as much again.
35 But love ye your enemies, and do good, and lend, hoping for nothing again; and your reward shall be great, and ye shall be the children of the Highest: for he is kind unto the unthankful and to the evil.
36 Be ye therefore merciful, as your Father also is merciful.
37 Judge not, and ye shall not be judged: condemn not, and ye shall not be condemned: forgive, and ye shall be forgiven.

JOYOUS news to announce to our friends and beneficiaries in the fact that the doors of the Sixth Avenue Mission at last have been thrown open to all those who desire to take advantage of the shelter and assistance we willingly offer. Our aim is to lend a helping hand to the deserving man or woman, ever keeping in mind the fact that life is sweet even though we may be homeless. Believing that better days are in reserve for all mankind we have chosen this method of encouraging the unfortunate. May we ask your cooperation in furthering all of this work.

A detailed description of the new building and its furnishings will be out in pamphlet form in a few days and it will be a pleasure to forward you a copy. It undoubtedly will interest you, as it illustrates intelligently the many advantages modern science in architecture has given the society. It will give in tabulated form a statement of expenditure of the Mission's funds to date.

Valley Forge Pottery

This ware is a product of pure fire. The aim is not only to produce beautiful form, decoration and color, but by the high temperature reached to give to the real glaze a texture and a quality seldom found outside the ancient Chinese pots. Bull potters, blues, browns, greens, pinks, grays and blacks, in many shades and varieties of effect, represent the boldest range in color. Human, floral and animal forms are used in decoration. We believe it better to bring out a limited edition of a beautiful and carefully thought out design, varying in each piece the color and glaze effect, than to seek and execute hastily a new design for each piece. A catalogue, for which we are often asked, would be unsatisfactory, for each piece is taken up and the piece made according to its individual value. This description will also give an idea of what we are doing in tiles suitable for fireplaces and interior decorations.

For years these Tudor Black letters have been in conspicuous service in nearly every printing office in the land; they are today more popular than before. Their great legibility and their graceful and dignified shapes make them preferred in all places where the less easily read old Black Letter would be unsatisfactory. Tudor Black is a standard fashion in type, and all printers who use it will unhesitatingly testify to its service-ability. The small expense of a big font makes of the series a peculiarly useful one.

A HAPPY FACE IS A FACE THAT GIVES JOY, AND THE CHELTENHAM—SO APT, SO FITTING—IS THIS KIND

It is undoubtedly the most popular type face that has been brought out in recent years. Judging by the satisfaction with which it was received the design was a most fortunate one, and it came at an opportune time measured by the demand which immediately sprang up. Scarceley had the American Type Founders Company finished the fourteen sizes in the Cheltenham Oldstyle series when requests came for an Italic series to go with it. The present series of Cheltenham Italic was the result. Its introduction met with an immediate success, and orders came in from the largest publishers and job printing offices, until now it is hardly possible to pick up a publication of any merit without a showing of the complete series of both the Cheltenham Oldstyle and the Cheltenham Italic being prominently displayed therein. A still further demand necessitated designing the other Cheltenhams shown on following pages. In fact, many among the most prominent advertisers in the country have requested that this face be the one used to display their matter as it so fittingly challenges the eye of the reading public.

The distinguished character of the Cheltenham family is so pronounced that the first glance reveals a design of decidedly unusual character that shows qualities never before attained in any other type face. It is in a class by itself. In cutting the other Cheltenhams to complement the Cheltenham Oldstyle the same lines that gave distinction to the first series were followed, and all have been as satisfactory as the original one.

The Cheltenham family has been the type sensation of the year, and their necessity in every properly equipped printing plant is quite apparent.

The Largest Type Family Ever Brought Out—and it is still growing
HE Cheltenham Family is notable in the Printing World—the largest and most complete series embodying the family idea ever brought out. Wherever type is used to convey a message, there you will find the Cheltenham in favor. "Cheltenham Oldstyle was the original member of the family, and was instantly adopted as the favorite here and introduced into foreign foundries under special arrangements.

Very shortly Miss Cheltenham Italic was presented, and her dainty form and graceful outline appealed to the eye of all.

Next came the lusty twins, Master Cheltenham Bold and Miss Cheltenham Bold Italic, and their strength made direct appeal to discriminating publishers and large advertisers.

Master Cheltenham Bold Condensed was the next member, and a candidate for printorial honors which met with the same reception accorded his two predecessors.

Now comes his Tom-Boy sister, Miss Cheltenham Bold Condensed Italic, as like Sir Bold Condensed as two peas in a pod. And what a team for Commercial Printing and all forms of Advertising Display—two winners!

And Sir Cheltenham Wide—how like the founder of the Family—a trifle extended in the Lower Case features, to fit this member for usefulness where the requirements so often demand a more extended face than the regular Cheltenham. The Caps of Cheltenham Oldstyle are used with this letter.

Miss Cheltenham Bold Outline—who may withstand the winsome features of this later addition to the Family-useful, distinctive and altogether adapted for either plain or two-color printing! The Outline registers with the Cheltenham Bold and has been cut for use with that face as a two-color letter.

Rivers Over Their Banks From Disastrous Cloudburst

A heavy rain has fallen over many Northern states and considerable damage has been done. The Brazos River at Bryan is rising at the rate of a foot an hour. With the rains along the lower river last night and today, the expectation is that the river will go over its banks at noon tomorrow below Bryan and indications appear now that the flood will exceed that of 1889, the highest known. At points below Bryan the river is rising fast. About half of Harrisburg is today under water.

TYPE DESIGN AN IMPORTANT FACTOR
There Come Times When Every Man In Business Stops
and does a little of good hard thinking.
MANY old historians contend that the art of printing was introduced and first practiced in England by Caxton, who, by his travels abroad and residence of many years in other countries, in the affairs of trade, had an opportunity of informing himself of the method and process of the art. By the encouragement of the Abbot of Westminster, first set a press in the Abbey, and began to print books from it after the year 1471. But the appearance of a book bearing an earlier date took from Caxton the glory of being the first to introduce printing in England.

HELEN OF TYRE

What phantom is this that appears
Through the purple mist of the years,
Itself but a mist like these?
A woman of cloud and of fire;
It is she; It is Helen of Tyre,
The town in the midst of the seas.

O Tyre! In thy crowded streets,
The phantom appears and retreats,
And the Israelites that sell
Thy tiles and lions of brass,
Look up as they see her pass,
And murmur "Jezebel!"

Then another phantom is seen
At her side, in a gray gabardine,
With beard that floats to his waist;
It is Simon Magnus, the Seer;
He speaks, and she pauses to hear
The word he utters in haste.

He says: "From this evil fame,
From this life of sorrow and shame,
I will take and make thee mine;
Thou hast been Queen Candace
And Helen of Troy, and shalt be
The Intelligence Divine!"

Oh, sweet as the breath of morn,
To the fallen and forlorn
Are whispered words of praise,
For the famished heart believes
The falsehood that tempts and deceives,
And the promise that betrays.

If design, workmanship, price—and last, but not by any means least—the type faces are up-to-date. The successful printer of today is the one who is ever on the lookout for new methods of attracting the attention of prospective customers, and once having them, by prompt and efficient service holding them. Obsolete type should be discarded, as it only takes up valuable space, and its place can easily be filled by a carefully selected assortment of appropriate series of American Line Type made only by

ADVERTISING THAT ADVERTISES

is the sort desired by persons seeking publicity for their wares. When buying anything you go to the place which has a reputation of affording the best. Anyone can buy space and fill it. But everybody cannot buy space with discrimination.

Advertising agents are primarily for this purpose, and those agencies are the most dependable which have the largest clientele of successful advertisers.

In This Respect We Lead

We make plans, write advertisements, booklets and follow-up letters free of all charge for those whose advertising we place, and for others at reasonable rates.

InType Distinctions

Type matter must attract the public's attention and enthuse readers if it would win results. No better or surer way for such accomplishment than is found in the Bewick Roman Series.

The design is distinctive and full of character. A line or two of Bewick Roman used for display makes a catchy challenger. It is certain to draw the eye's attention.

Locked in their iron chest?

I have but marked the place,
But half the secret told,
That following this slight trace
Others may find the gold.

The author of this volume is an exceedingly well informed man, having been connected in many capacities with several of those recent financial troubles which are far-reaching in their effects. He has acted as estimator, and has found himself at one time or another occupying either an experienced

THERE was a time when to burlesque drag-hunting and to jeer at those who rode across country to the scent of anise-seed was the popular business of the daily press and the pleasure of its many readers. We are all familiar with those self-satisfied individuals who, with missiles filled upon every hand with which they or that is beyond. And those who pioneer drag have busily sought to destroy the most scoffers. In those times we live with the existence of a dozen years ago, this announce in mockery an of a pink coat some newspaper for sportsmen, the mere that it was a product of bodily exertion, probably they not knowing that the are to be found.

brought us their message. Demoralizing as it certainly was to humanity's former ideals, philosophic, theologic and poetic, it bore the spirit of an absolute conviction and must be heard as it will convince you. What a contrast this winged botany of our day is to that of a hundred years ago! The flower, no longer is the non-committal, structural, botanical specimen only. It is no longer the example of mere arbitrary independent creation, reverently and solely referred to as the one orthodox delight of man. The blossom whose unhappy fate was bemoaned by the sad poet because forsooth it must needs to blush unseen or waste its glad sweetness on the desert air, is found alone in the dusty hortus siccus of a blind and deduced past. Century Expanded Italic

In a recent number of the Technical Journal, an article by Charles W. White says: "Any printer with an informed mind and an artistic taste must have rejected a goodly portion of the faces shown in any of the specimen books, and been abundantly justified in doing so. The faces that have disappeared belong to a period in the history of American printing which it is more agreeable to remember little of. It was the time of the extremely common, in types and printing. There was little originality displayed by the type founders, who were content with producing an occasional new face of doubtful merit, and who kept all the old faces firmly fixed in their specimen books. But this is not the case we are now observing for the new spirit can never rest. The new spirit can never rest for art it is destined to be young and to the beginning to be adopted, with the rapid growing elimination for things immeasurably inferior of the last two or three years. The power of typography can be better understood and appreciated in circumstances that yield so cogently to the perception of the right

Twentieth Century 19

Century Expanded Italic

THIS is an American Line Type pre-eminent for printing Newspapers, Catalogues, Brochures and other advertising literature. Easily read, attractive to the eye, and possessing individuality which makes it distinctive. Still another point in its favor is the absence of hair lines, which will appeal forcibly to the buying printer on account of increased durability and wearing qualities. The Century Expanded was cut on the Benton Punch Cutting Machine, the product of which is the closest approach possible to absolute accuracy. The counters are deeper, and the bevels are truer, and are invariably of uniform slope. This makes it possible to preserve the character of the face even after the type has had long use, which is always impossible in hand cut type or that produced by ordinary methods.

Can't be Beat

There can be none better than "best," and the best type is American. Don't think for a minute that the good work is beyond you. In proper material is the secret of profit in production. Ads like these are put together exactly as a modern building is constructed. We design the parts so they can be easily assembled to form modern structures as per the whim of the typotec. That's all there is to it: a judicious selection of material like this

Critical Review of the Celebrated Books in the Royal Library at Stockholm & Finely Illustrated

ONE of the most costly books in the world is a copy of the Bible in the Royal Library at Stockholm, and there is not another like it in existence. It is another monument to the zeal as well as the artistic skill and courtesy of the early monks, written on skins were used in making, being one yard in length, inches in width. The covers of solid planks four inches in The contrast between this monk poring over his manuscript and the art of bookmaking.

Booklets and Fine Catalogs

BEFORE long—before the “rush” season in all large printing concerns begins—you will want to figure on something in the fine booklet or catalog line. On a kind of service to which so much importance attaches, you ought to be willing to differentiate slightly in favor of a house with thirty years of unbroken advertising success. Through the combined efforts of special artists, special writers, and experts in typesetting, we can lift any business into the world of publicity.

OUR ADVICE COSTS NOTHING

and we will, upon request, furnish dummies and estimates of cost of Booklets, Folders, Circulars, Art Catalogs, and all other advertising specialties.

THE DESIGNER
HIS RELATIONSHIP TO THE PRINTER

DESIGNING and manufacturing of type, to fully meet present day requirements, demand more than artistic study and skill. The type founder, to be successful, must not only thoroughly understand all the needs of the printers, but must anticipate them. To do this intelligently, he must be well informed as to what is going on in all branches of the business and in all parts of the country. That is the position which is so prominently occupied by the

AMERICAN TYPE FOUNDER CO.
DESIGNER OF ROYCEW FAR AND OTHER FACES

Printing Types
And Material of All Kinds

The American Type Founders Company is the most extensive of the world's dealers in printshop machinery and material. Its salesrooms are located in the largest city of every business district of importance in the United States, and it also has special dealers distributed throughout the principal printing centres of the universe. There is absolutely nothing that goes into the equipment of a modern plant it cannot furnish. It makes a specialty of cylinder and job presses and paper cutters, at liberal rates.
PRINTERS sometimes have unknowingly misused this series, wherein two styles of letters are included, failing thereby to obtain the completeness of detail planned for by the designers. The long s and its combinations are: f, s; th, sh; fl, sl; ft, st. It is very effective in antique work. It should not be concluded that a strict following of all these directions is necessary to produce good work, but better results will be obtainable if they are very closely adhered to. The readiness with which these faces conform to certain lines of work becomes at once apparent, and with the assistance of their special characters give a fascinating charm to antique publications.

The special characters should be used as follows:

M In words the letters of which are open.
R Use as a final letter in all-cap words.
h As a final letter, never otherwise.
m As a final letter, only.
n As a final letter, exclusively.
t As a final letter, but not too frequently.
u In words having no descending letters.
& Wherever possible, as “attracted.”

Exhibit of Poodles

If former exhibits have been a criterion by which to judge, we may justly expect an unusual number of visitors at our tenth annual showing of full-blooded Poodles. Every well bred dog has its own points of individuality, noticeably distinguished by some trait in its character. These points of difference make an exhibit of special interest to intending purchasers. It will be surprising if even the most fastidious dog-fancier does not leave our exhibit in the proud possession of a poodle of historical pedigree with peculiarities and complexion to match the tastes and characteristics of the purchaser.

School of Albion

The Arts and Crafts School of Albion has been organized for the purpose of giving as many as possible of the boys of Albion an opportunity for instruction in handcraft, and to foster an interest in artistic and beautiful handwork based upon the principles of good design.

In addition to the educational value of the work to the student, when his own work shall meet with the approval of the instructor he will reap some pecuniary benefit for himself therefrom, besides helping to make the school more self-supporting.

Electricity in Your House

Means Real Economy

THERE is not only HOW LITTLE IT COSTS, and the consequent saving in expense to be considered, but the saving in health, the saving in time, the addition to the comforts of life, the accentuation of the ease of living in a real modern way, inexpensively; these are not only considerations but conditions that present themselves to the economical housekeeper. Electricity that supplies LIGHT in your home will run a revolving fan—operate a machine or heat an iron without dirt or trouble in your sewing-room—conveniently heat a chafing dish or boil coffee; LIGHT, HEAT and POWER supplied from one source.

In this connection housewives will be interested in the display of Electrical Cooking Utensils now being exhibited in the basement of our store and in use in all the best hotels.

MATERIAL REDUCTION in rates for Electric Current renders the use of these conveniences ECONOMICAL.

PEDIGREED MARES

Our breed mares are famous for their speed-producing qualities, and some of the fastest horses now on the track were bred in our stables. We have a large number of yearlings and two-year-olds for sale. These colts are all warranted sound and kind; well broken to harness; show good action, and signs of great speed. If you are desirous of purchasing, an examination of our stock would show you that our stable has no equal and we are confident that you would find something in our stock to suit you.

CHAPTER THREE

The Uncertain Period of Grecian History

Extending from the close of the Trojan war to the first of the war with Persia, 1183 to 490 B.C. — 693 years

The immediate consequences of the Trojan war, as represented by Greek historians, were scarcely less disastrous to the victors than to the vanquished. The return of the Grecian heroes to their own country is represented by Homer and other early writers to have been full of tragical adventures, while their long absence had encouraged usurpers to seize many of their thrones; and hence arose fierce wars and internal commotions, all of which greatly retarded the progress of Grecian civilisation.

Among these petty revolutions, however, no events of general interest occurred until about sixty years after the fall of Troy, when the people from Epirus, passing across the mountain chain of Pindus, descended into the rich plains which lie along the banks of the Peneus; and finally conquered the country, to which they gave the name Thessaly; driving away most of the inhabitants, and reducing those who remained to the condition of serfs or agricultural slaves.

1. The country of Epirus, comprised in the present Turkish province of Albania, was at the north-western extremity of Greece, lying along the coast of the Adriatic Sea, or Gulf of Venice, and bounded on the north by Macedonia, and on the east by Macedonia and Thessaly. The inhabitants in early times were probably Pelasgic, but they can hardly be considered ever to have belonged to the Hellenic race, or Grecian proper. Epirus is principally distinguished in Grecian history as the country of the celebrated Pynthus. The earliest oracle of Greece was that of Dodona in Epirus; but its exact locality is unknown. There was another oracle of the same name in Thessaly. Map φα. 1.

2. Pindus is the name of the mountain chain which separated Thessaly from Epirus. Map φα. 1.

3. Peneus, the principal river of Thessaly, rises in the Pindus mountains, and flowing in a course generally east, passes through the vale of Tempe, and empties its waters into the Thermaic Gulf, now the gulf of Salonica, a branch of the Aegean Sea, or archipelago. Map φα. 1.

Martial Law Prevails in Island, Women and Children Removed to Safety by Military Executive

It is believed that part of the Japanese fleet is now taking up a position south of Formosa, and that Admiral Togo's plan is to engage with the Russians there. The Japanese get orders from this city at night time. Martial law, which was first declared at Tamsui, Island of Formosa, and subsequently made general throughout the Island, has been followed by the selection of a military governor and pillaging of stores has been stopped.

AMERICAN LINE BEST

The excellence attained in the American Line is unquestionably highly appreciated by printers generally. It has made possible the easy alignment of type of one size with that of any other. The American Point Line System has also been introduced into Foundries across the water. Order a font of American Point Leads to simplify alignment. They do the trick without any waste. That a saving of much time is gained by the use of point line type is proven by the fact that nearly all good printing offices immediately adopted it.

THE constant development in all
advertising typography causes
printers and patrons of printers
to realize the possibilities and
satisfaction of purely original
and artistic typesetting. One
factor the most responsible for
bringing about this very desir-
able condition is the American Type Founders
Company, a concern that is unremitting in
its efforts to educate printers to appreciate
the value of producing the highest grade of
typography. Its methods of doing this are
most practical, thereby setting the example,
and by making special styles of type showing
original ideas. This letter is its own seller

TOOT YOUR HORN

To Attract Attention

In the majority of advertising matter it is necessary to go a little out of the way to attract much attention. In other words, the business represented must toot its horn loud enough to insure attention before it attains a hearing.

—American Printer

A good, snappy illustration on a new type design will furnish the requisite wind to insure a proper tooting of the horn. It is material of this kind that is the exclusive product of the American Type Founders Co. Such material is shown in this Type Book.

CONTRACT FOR BUILDING WARSHIPS

Delaware Builders Make Business Visit Abroad to Complete Details For Enormous Naval Armament

Charles M. Swinton and Silas Young will sail for Russia within the next few weeks, where they hope to close negotiations with the Russian Ministry for the construction of ten battleships and their accessories, together with other naval armament, at a total cost of $100,000,000.

Mr. Swinton admitted yesterday that Mr. Young and himself would leave for St. Petersburg to discuss and probably conclude negotiations with the Russian government. These negotiations have been in progress for several weeks. It was stated, however, that the propositions which Mr. Swinton made on behalf of the Martinburg Steel Company have not been closed. It was known among the large shipbuilders of the world that Russia proposes to begin immediately the reconstruction of its navy and tentative propositions have been given by several English and German concerns to the Russian government, but when the

The Compact Series, cast American point line, point body and point set. This is primarily a letter for the newspaper, its width of body making possible strong display of headings and advertisements within the narrow confines of the newspaper columns. Beyond this, however, Compact Series has a value in every job office; in fact, this is one of the good, strong, type faces that will have its daily use in every first-class printing office. Originated and made by the American Type Founders Company, and in stock at all its houses. As a type for display headings, Compact Series is of pre-eminent value and all newspapers should have it.

NEW MONEY FOR OLD
AT SUB-TREASURY

KIND UNCLE SAM HAS EXPRESSED THERE $3,000,000
FOR CHRISTMAS PRESENTS

A Christmas gift in cash, whether to your wife or your bootblack, is received with greater appreciation when the banknotes are crisp or the coin new and shining.

Uncle Sam, who is a sort of Santa Claus, knows this, so he has sent $3,000,000 in freshly-engraved yellow and greenbacks and newly-coined gold pieces to the Wall street Sub-Treasury.

"New money for old" is now the Aladdin-like cry there. But no one can get more than $800 in new money without paying a small premium—the express charges on it from the mints to the Sub-Treasury.

Uncle Sam, who loves all his children, demands this premium so that any fellow will have a chance to get a bright $5 gold piece and put it in baby's bank.

THE MESSENGERS, AFTER COMING INTO PRESENCE OF KING ARTHUR, DID TO HIM THEIR OBEISANCE
In making to him reverence and said to him in this wise: The high and mighty Emperor Lucius sendeth to the King of Britain greeting, commanding thee to acknowledge him for thy lord, and to send him the truage due of this realm unto the Empire, which thy

MADISON LAKES

Four limpid lakes, — four Naiades
Or sylvan deities are these,
In flowing robes of azure dressed;
Four lovely handmaids, that uphold
Their shining mirrors, rimmed with gold,
To the fair city in the West.

By day the coursers of the sun
Drink of these waters as they run
Their swift diurnal round on high;
By night the constellations glow
Far down the hollow depths below
And glimmer in another sky.

Fair lakes, serene and full of light,
Fair town, arrayed in robes of white,
How visionary ye appear!
All like a floating landscape seems
In cloud-land or a land of dreams,
Bathed in a golden atmosphere!

ANNOUNCEMENT

THAT DESIGN IN A TYPE FACE IS THE THING TO LOOK FOR IS AGAIN DEMONSTRATED IN THIS DISPLAY OF THE COPPERPLATE GOTHICS. NOTE THE EFFECT OF COPPER-PLATE ENGRAVING IN THE CARDS AND ANNOUNCEMENTS. THE JOHN HENRY AND THE BOWER FOUNDRY LETTER HEADS SET IN THE STYLE USED BY LITHOGRAPHERS ARE VERY GOOD EXAMPLES OF THE AMOUNT OF HARMONIOUS DETAIL OFTEN DESIRED, BUT IMPOSSIBLE TO OBTAIN WITHOUT THE USE OF THESE SERIES. ATTENTION IS CALLED PARTICULARLY TO THE FACT THAT THE HEAVY AND LIGHT ARE CAST THE SAME SET, MAKING EMPHASIS EASY. THE 6 AND 12 POINT FONTS LINE AT THE BOTTOM WITHOUT THE USE OF LEADS.
COPPERPLATE GOTHIC SERIES

THE COPPERPLATE ENGRAVER AND THE LITHOGRAPHER FIND CONSTANT USE FOR A CONDENSED LETTER AT TIMES ON ACCOUNT OF LACK OF SPACE, BUT MORE FREQUENTLY TO OBTAIN THE PROPER BALANCE AND COLOR.

THE PRINTER WILL FIND IN THESE TWO SERIES THE STRENGTH AND VIRILITY OF THE NORMAL LETTER WITH THE REQUISITE LEANNESS NECESSARY FOR LIMITED SPACE, AT THE SAME TIME EFFECTING THAT HARMONY OF FORM SO MUCH TO BE DESIRED.

FINE PRINTING
AN INVESTMENT

THE trade magazines pertaining to the printing business, together with the fine specimen sheets that are issued so frequently by the American Type Founders Co., have become the principal mediums for demonstrating the possibilities of type, ink and paper from an artistic standpoint. These three forces depend each upon the other, but the effectiveness of this great combination rests mainly on the manufacture of the type; the quality of its metal and the beauty of its face being absolutely necessary to the completion of good work. The finest line of type faces ever designed and cast are those originated and produced by high-class artists and mechanics employed by us.

THE CUSTOMER IS THE BEST JUDGE
A FEW REMARKS ON PRINTING WORTH READING

ALLING to mind a story I heard told not long ago by a prominent photographer, I will relate the same one to you. He said: “When I was quite new at the business I always used to take the greatest pains to get every picture to please me, and very often the customer would say, ‘It’s not a bit like me.’ Now I put the plates through in the least possible time and results are fifty percent better.”

DOESN’T it often seem as though foremen of some printing shops resemble the picture taker? Hours of time, multitudinous explanations, lots and lots of gray matter are spent upon a job which the customer in very many instances rejects. It is fairly safe to assert that the simplest and most direct method of getting effects will, in nine cases out of ten, please the customer, as well as be productive of the least unpleasantness.
As for the working out of an idea, this is of necessity a matter of personal feeling and expression; experience however, has taught that for instance, white space is decorative, or black space massed relief; colors, combined and placed in just the gray near the white with balance and balance of perception. A small black has more power than would have a large one, may be used thereto a small of color are a dark gray, light gray, added a black indicated in.

GREETING TO
OUR FRIENDS

For more than a quarter of a century we have kept in close touch with the wants of the public. This careful and continued watch of the interests of members of this community has given us intimate knowledge of their requirements in matters of general and personal supplies and also in the more elaborate articles of texture for raiment. Therefore, we are in a most favorable position to fully and intelligently cater to their needs to a mutual satisfaction.

A Popular History of the Monasterian Church of America

By M. Niles Jacobeson, Ph. D.

Author of Life in the Days of Old; Extract Notes of Letters on Mythology; The Politicians of the Tomorrow; Does Religion Satisfy the Soul's Spirit? Etc.

THE PUBLISHERS desire to call your attention to the above work they now have in preparation, and the following pages, which will give an outline of the History. This volume will, in every respect, be a most valuable contribution to Monasterian History. No expense has been spared by the publishers in the mechanical execution of the book. The first edition will be limited to only five hundred copies, printed on fine paper, illustrated with portraits of well-known men, including Benjamin Gillmore, John Dimon, George Henderson, Benjamin Kellogg, Henry George Buckingham, Frank Cobb, James Kane, Harry Sinclair, and others. Each copy will be as represented, and the binding will be dignified and handsome.

Your advance subscription is solicited for this volume before February 16, 1906. The price to advance subscribers, sending in their orders before that date, will be $3.50 by express prepaid.

Orders will be entered as soon as received. Subscription blank enclosed. The book will be published by April 16, 1906. Sold only direct from the publishers.

RECAPITULATION OF SOME OF THE GREAT SPANISH PAINTINGS OF THE PRESENT DAY
The first thing to impress one in Spanish paintings of today is the expression of realism. Every Spaniard in art closely observes nature. The Strathmore type face was designed by a well-known Eastern artist who has had much to do with the work on editions de luxe brought out in recent years by some of our greatest publishing houses. In his endeavor to strike upon some original style of letter he was compelled to make diligent search through many large libraries. By chance he was given access to one of the greatest private libraries in New York City, and after much deliberation partly adopted a style considerably used by Spanish sculptors and artists hundreds of years ago, then considered paramount in all things pertaining to art. That the artist has modified the original style to one that meets the requirements of the printer of today goes without saying, and we feel a confidence in prophesying that the Strathmore will be included among our most prominent type faces. The Series will comprise fourteen sizes—from six to seventy-two point—and will be ready for the market at an early date. The several ornaments that are shown with this series will also be classed among the best recently introduced to the ever progressive printer.

PRINTERS SHOULD BE WARY IN SELECTING THEIR TYPES

PRINTER, when choosing type, should not only attend to the cut of the letter, but should as well observe if its shank is perfectly true, and that it lines or ranges with accuracy, and is of an equal height. Then the quality of the material of which it is composed and the finish of the letter itself demand particular attention. The ease with which type faces of an inferior grade may be made through the facilities afforded of multiplying matrices by the electrotyping process instead of cutting direct has also led to the use of poor metal and to the sale of types without due regard to nicety of finish and exactness of body and standing. It is important that types should have a deep face with strong, beveled shoulders or foundations upon the serifs or hairlines and that the letters should have a deep nick, which should be different from other fonts of like bord in the same house. A Manuccio, born at Bas, succeeded Jenson at V and turned to good account the latter’s admirable fonts of type. He also made many advances in the art of printing, the most notable of which is the invention of the style of type now known as Italic. It was first used in an octavo edition of Viril issued by him in 1501, and Pope Leo X. gave him a letter of privilege, entitling him to the sole use of the type he had invented. It is said to have been founded on the handwriting of Petrarch, which it closely resembles. Italic was largely employed to distinguish such parts of a book.

SONG DEDICATED TO A
SHEPHERD BOY
Like some vision olden
Of far other time,
When the age was golden,
In the young world's prime,
Is thy soft pipe ringing,
O lonely shepherd boy:
What song art thou singing,
In thy youth and joy?

THE LAST LEAF
I saw him once before,
As he passed by the door
And again
The pavement stones resound
As he totters o'er the ground
With his cane.
They say that in his prime,
Ere the pruning hook of Time
Cut him down.
Not a better man was found
By the crier on his round
Through the town.

Clothes have more effect upon us than we imagine. Our deportment depends greatly upon our dress. Make a man get into some seedy, worn-out rags, and he will skulk along with his head hanging down, like a man going out to fetch his own supper beer. But deck out the same article in gorgeous raiment and fine linen, and he will strut down the main thoroughfare, swinging his cane and looking at the girls, as perky as a bantam cock.

18 Point No. 12418

18 Point Rule

Rule larger than 12 point is not called for in regular fonts in sufficient quantities to make it advisable to carry regular scheme fonts in stock. It is sold by the piece according to prices in Tables H and I on page 675. As a basis for figuring we give below schemes for fonts of 18 point rule, weighing approximately 3, 5 and 10 pounds.

3 POUND FONT
1 to 4 ens. by one-half ens.—4 pieces each.
5 to 14 ens. by ens.—2 pieces each.
The above pieces (see Tables H and I on page 675), amount to $4.44.

5 POUND FONT
1 to 4 ens. by one-half ens.—4 pieces each.
5 to 10 ens. by ens.—2 pieces each.
11 to 18 ens. by ens.—2 pieces each.
The above pieces (see Tables H and I on page 675), amount to $7.05.

10 POUND FONT
1 to 4 ens. by one-half ens.—4 pieces each.
5 to 10 ens. by ens.—3 pieces each.
11 to 20 ens. by ens.—2 pieces each.
The above pieces (see Tables H and I on page 675), amount to $13.31.

Miter (18 point), 2 1/2 ens. piece long inside, would amount to 72 cents per set and 5 ens. miter $1.04 per set, figured from Table H (using outside measure) and the charge for mitering in Table F.

## Quantity Discounts on Cut Rule

The prices in Tables H and I are subject to the following quantity discounts in addition to regular discounts, if order for rule of one body and face ordered at one time equals or exceeds (exclusive of notching charges):

- $10.00: The quantity discount is 5 per cent.
- $30.00: The quantity discount is 10 per cent.
- $50.00: The quantity discount is 15 per cent.
- $100.00: The quantity discount is 20 per cent.

This discount to be deducted before the regular discount on brass rule. Notching charges are NOT subject to the Quantity Discount, but are subject to the regular discount.

Every character is cast on en-quad set, and only en-quads and 4-to-em spaces are used for spacing. By setting sticks to a multiple of 10 Point, spacing and justification become mere child’s play; in fact, this type is self-spacing. Although the face is large, on examination it will be found that Time-Saving Mail List Type is quite condensed on the average as ordinary Mail List Type. Price same as 10 Point Roman.

For One and Two Colors

Usable at all seasons of the year, and in multiform classes of printed matter. Particularly adapted to all ecclesiastic work, striking advertisements, show cards covers, etc. Merit Cards for Sabbath Schools will become peculiarly attractive to little children if Flemish Borders in two colors are used in their construction. It will be remarked that while the prices quoted are exceptionally low, the font quantities are so liberal as to more than supply the requirements of any ordinary job.

Chaucer Borders

There is an originality and distinctiveness in border characters or embellishers of the Chaucer designs which impart to printing all of the flavors of an engraved design. They are an immediate and pronounced departure from the ordinary product of the type foundry, and the universality with which these have been adopted the country over indicates the introduction of a new style of typography. The result cannot fail to be a marked increase in the use of all forms of printed matter for trade extensions.
Pabst Borders

The majority of type display is for the purpose of commercial advertising, the demands for which are continually increasing, and the requirement on the part of the buyers of printing is for modes of expression which shall catch the eye. The American Type Founders Company has been quick to appreciate this coming demand, and this American Line Type Book makes available a wealth of Decorative Material which the wide-awake printer will be quick to turn to practical advantage in the extension of his business. Never before have printers been offered such distinctive type faces with border designs which harmonize and which bear so plainly the earmarks of having been designed for a specific purpose.

OF prime importance and value among the Decorative Material that is shown in the American Line Type Book is this new series of borders, called Panel Borders, designed to be used for the building of panel typography of the style which has of late had such a vogue. These borders are cast in long pieces and may be more quickly and easily handled than brass rule. The open space between the characters tends to simplify press work, while the flexibility of such material makes it much more economical than brass rule. These Panel Borders are in stock and may be had at any house of the American Type Founders Company.
These Panel Borders are ALL cast on 6 point body. The fonts of the smallest face contain single characters 12 points long — and double characters 24 points long —; in the next larger size the single characters are 18 points long — and the double characters are 36 points long —; in the third size the characters are 24 points — and 48 points — long respectively. In the fourth size single characters only are footed, the length being 30 points —; in the largest size the characters are 36 points — in length.

Laurel Ornaments

Prices
6 Point $1.25
12 Point 1.25
18 Point 1.50

These Ornaments are cast in a cored type mould, with as little shoulder as possible on the inside of the wreaths, so that type lines may be set close up. A great variety of designs may be quickly and easily produced with these inexpensive Ornaments.

Laurel Ornaments

Are designed to work separately and with the Laurel Borders shown on page 739. Wreaths may be enlarged symmetrically by using the single piece.

THREE SIZES

Characters of 18 Point Laurel Ornaments
The characters of 6 Point and of 12 Point are practically similar to these.

Originator & Maker Men's Fine Clothes Exclusively

In Lams Row, near Huntington Boulevard
This series of Ornaments has a wide range of usefulness, where an original design is required for color work. Put up in usable fonts at popular prices. The large characters have been cast in different designs, so that a variety of combinations may be made when used as a border, enabling the printer to secure still more of the engraved effect by avoiding repetition. A separate price has been given to the individual characters, so that at very little cost a variety of distinctive designs is made possible.
